NEWARK HIGH SCHOOL TEAMS SUFFER DOUBLE DEFEAT FRIDAY NIGHT

Lost in Newark to Mt. Vernon and in Zanesville to Clay City Boys on Question "The Recall of Judges"

NEWARK TEAMS MADE AN EXCELLENT SHOWING

Enthusiasm Was Rampant and School Songs and Class Yells Were Very Much in Evidence—Large Crowds Hear Question Discussed in Very Able Manner.

At Newark—Mt. Vernon 2, Newark 1.
At Zanesville—Zanesville 2, Newark 1.
At Mt. Vernon—Zanesville 3, Mt. Vernon 0.

Resolved—That judges who hold office by election shall be subject to recall by popular vote under such regulation as shall be prescribed by law. (Constitutionally conceded.)

Judges—Prof. W. H. Siebert, O. S. U.; Prof. C. L. Martzoff, Ohio University; Prof. Charles Snavely, Otterbein University.

Newark High School debaters, hoped to prove. He declared that one team at Zanesville discussing the negative side of the question "The Recall of Judges," and one team in Newark discussing the affirmative lost twice Friday night, getting but one vote in each debate. With Mt. Vernon the opponents in the local debate, the vote of the judges stood 2 to 1 for Mt. Vernon. At Zanesville the vote was the same, favoring Zanesville.

The result was a sore disappointment to the debating teams as well as the student body. The decision of the judges reflects no discredit on the splendid work of the Newark debaters for they made an excellent showing. They worked diligently and faithfully in preparing the material for the contest. Their arguments were delivered forcefully and intelligently.

At the High School auditorium here, Newark people were treated to an exhibition of school spirit that was refreshing and inspiring. The student body was divided, the girls from the school taking seats in the balcony. The semi-circle was a bright spot of smiling, animated faces on a background of white and red; the girls all wore white blouses with neck and hair ribbons of red. On the main floor, the boys occupied the center section of seats, the overflow taking seats on the inside aisles of the two outside sections.

Prof. Klopp and the High School orchestra enlivened the half-hour before the time for the debate with a splendid program, this being interspersed with school songs and school yells.

Howard Ruggs, cheer leader, with his advisory board, consisting of Clifford Sherburn, Ned Putnam, Bedford Cheedle, Ned Warner and others, occupied front seats. Ruggs directed the cheering with a vim and vigor which was encouraging to the quartet of debaters who represented the Newark school.

The Mt. Vernon contingent, consisting of seventy-five to one hundred of the faculty and students of Mt. Vernon High School, with a number of citizens, occupied a portion of the section on the left of the stage and, for a small crowd, plenty of noise came from that portion of the auditorium. The visitors carried pennants and banners of the school colors, orange and black, and their yells and songs were accompanied by waving of pennants.

Despite the small number in the party, the Mt. Vernon students tackled the "locomotive" yell and got away with it, though the volume seemed pitifully weak when compared with the same yell as executed by the Newark boys a minute later. The Newark pupils followed with a school song, to the air "Tammam," which wound up with a crash of orchestra brass and a lusty yell.

The stage was prettily decorated with pennants and potted plants. A string of Newark pennants was strung across the proscenium arch. A large American flag of silk, attached to a staff stood in the rear of the stage.

The table at which the Newark debaters sat, was draped with a large red and white Newark banner and a vase of American Beauty roses occupied the center of the table. A vase of Easter flowers decorated the table where the Mt. Vernon speakers were seated.

President Kibler of the board of education presided, and after some delay, occasioned by the late arrival of one of the judges, the first speaker for the affirmative, Eugene Wells of Newark High, was announced.

Mr. Wells opened his argument by stating what the affirmative

clear laws unconstitutional. By reading their own views into the statutes they frustrate the intent of legislative bodies.

The speaker cited the case of a man in Mt. Vernon found guilty of manslaughter under peculiarly aggravating circumstances. He was given a suspended sentence and the residents of Knox county, indignant though they were, had no recourse. He also referred to the corrupt Tweed ring in New York, Boss Cox of Cincinnati, and other cases of corruption where judges have been tools of the interests. He called attention to the fact that in many cases, attorneys who had served corporations, were elected to judicial positions and continued to serve the interests. He declared that there should be some method of restraining "courts of evil." "The object of the recall," declared Mr. Wells, "is to voice the will of the people. It is not revolutionary." Mr. Wells' delivery was good, though at times his voice dropped to such a low tone that it did not carry. He advanced his arguments in a forceful manner, and his stage presence was free and easy.

Miss Dorothy Blair of Mt. Vernon, was the first negative speaker. She opposed the adoption of the recall on the theory that it would place the judiciary in the power of politicians. She declared that displeased bosses or disappointed political machines would be able to exercise the recall as effectively as the people. She stated that as long as the people hadn't time to make a careful study of the judicial candidates, they would make no more careful inquiry into the merits of the charges in case a recall was attempted. She demanded to know of the affirmative what percent of voters would be necessary on a petition and what method would be used in exercising the recall on supreme court judges. "If the people in a remote county are displeased with a supreme court decision," she asked, "by what method?" (Continued on Page 4, Col. 4.)

ASHBROOK BILL TO RESTRICT POWER

Representative Ashbrook will introduce at the coming session of congress a bill to restrict the power of the postoffice department in the United States fraud order. Mr. Ashbrook is chairman of the postoffice investigating committee which made an extensive inquiry into the E. G. Lewis Publishing company case in which it was found the postoffice made unfair use of the order.

Mr. Ashbrook's bill will provide that all persons accused of using the mails to defraud shall be furnished with a complete copy of the case against them, including the reports of postal inspectors, and may have the opportunity to examine the inspectors under oath.

EX-GOV. FOR TREASURER

Secretary of National Committee Offered a Good Berth—President to Announce Policy Next Week.

Washington, March 15.—Former Governor John Burke of North Dakota, has been selected by President Wilson to be United States treasurer, according to an announcement made today. His nomination is expected to be sent to the senate today.

The president today received a letter from Richard Olney, declining the post of ambassador to England. Mr. Olney's letter declining the post is said to be of a confidential nature and consequently was not given out. It is said that Mrs. Olney is in poor health and that this figured largely in the declination.

Charles W. Eliot, president emeritus of Harvard, is said, may be offered the post. Advice from Boston are that Dr. Eliot will not consider the offer.

George Foster Peabody was an early White House caller today. He declared he had not been offered the position of collector of the port of New York. Dudley Field Malone refused to discuss his visit with the president. It was intimated by friends that he might finally decline any public office.

Joseph Davies, of Wisconsin, secretary of the Democratic national committee, will probably accept the post of assistant secretary of war, which the president has offered him. Mr. Davies had been offered a diplomatic post and was considering it. (Continued on Page 3, Col. 5.)

GOVERNOR COX'S MASTERLY ADDRESS AT GOOD ROADS MEETING AT COLUMBUS

Columbus, O., March 15.—The next time we meet the deeds of the administration will talk a great deal more eloquently than any words I can say.

When this striking statement was uttered by the Governor of Ohio, James M. Cox, at the close of a masterly address delivered by him at the Rural Life and Good Roads Congress in Columbus, judging from the applause which greeted his remark, the prophecy would come true. It also dispelled any doubts that might have existed about the sincerity of the Executive for the delegates knew that in just one year, the Governor would be called upon to review his work and counsel the congress.

By resolution adopted, the delegates not only expressed their hearty appreciation of the action of the State Executive in calling the congress, but they placed a stronger stamp of approval on it, when they unanimously voted to make the congress an annual institution, with annual sessions. Among the many courtesies shown the delegates, the public reception in the Governor's office Thursday afternoon was a notable one.

"We will get nowhere in Ohio so long as we travel in the mud, and we will get nowhere in governmental affairs so long as we use the antiquated agencies and implements that have been discarded by modern men and advanced thought," said the Governor in opening his speech. He then told the farmers of the \$100,000,000 that have been expended by the federal government to improve the waterways and harbors and to construct public buildings.

"You farmers helped to pay for all that, and now it is time that the city claps be required to pay for improvements in the country," shouted the Governor, and a vociferous round of applause greeted the remark. Then the Executive followed with this: "I favor a state levy for the building of good roads." The answering applause from the audience was deafening. Continuing along this line, the Governor said he favored a law compelling the use of the split log drag, a reconditioning of the antiquated road laws so they could be brought down to date, and a system of selecting road supervisors that would bring into service the best men, and these all held in close touch with the county and state units engaged in this work.

To stem the tide that is depopulating the farms and filling the cities, lessening the food supply and sending living prices sky-high, the Governor would not only make the tilling of the soil more profitable, but he would bring into the homes in the rural sections, the educational advantages, so far as possible, community life and social benefits that have made the cities more attractive. His school survey, he said, was designed to bring about a single educational system in the state, instead of 160. He has planned to use the data secured by the survey to throttle the vicious school book trust so that the country people will no longer be forced to contribute large sums to it through frequent and forced changes in text books.

To reduce the cost of government, the Governor explained his state budget plan, which is expected to save nearly \$1,000,000 annually. The enormous increase in public expenditures was laid, largely, at the door of those who create new lines of activity, and cause separate and new departments to perform the work. He spoke of the plan to consolidate all state law departments in the interest of economy and efficiency, and then announced that he was just what was proposed in the Cincinnati bill for the merging of all agricultural departments. The general assembly was designated as the best body of solons ever elected in Ohio, and reference was made to the lobby purged and clean atmosphere in which they are working in Columbus.

HEARING OF KOHLER COMPLETED

Decision in Case of "Golden Rule" Chief to be Given Next Week

THE SCHEARER INCIDENT

Is Described by the Forest City's Police Chief as a Matter of Business Relating to Remark About Woman.

Cleveland, O., March 15.—The hearing of the charges of gross immorality against Chief of Police Kohler was completed today. The civil service commission announced that a decision would not be given before next week.

Cleveland, O., March 15.—Chief of Police Fred Kohler told his story of his actions at the home of Samuel D. Schearer, the night of June 5, 1912. Kohler, known as the "Golden Rule" Police Chief, is on trial before the Civil Service Commission on charges of "gross" immorality, conduct subversive to order and discipline in the police department and conduct unbecoming an officer and gentleman. His story concludes the testimony.

Each side was allowed half an hour for arguments this morning. Chairman S. H. Holding of the commission, asked the attorneys to offer in their arguments a definition of the term "gross immorality," as used in the statute.

Frequent tilts with City Solicitor Wilcox marked Kohler's recital, and he said: "Don't try to get me in bad; I'm in bad enough now."

Several times he was cautioned by the commission to confine his testimony to direct answers, although Chairman Holding said:

"The chief is on trial on charges involving his position and personal honor and may tell his story fully."

In a clear, rapid manner he told the story of his discovery in the Schearer home by Samuel Schearer.

"I went to the Schearer home," said Chief Kohler, "the night of June 5, 1912, at the invitation of another woman to explain to that woman's husband a remark I had made to Mrs. Schearer that I had seen this woman in a downtown grill room with another woman and with a man not her husband."

"I found only Mrs. Schearer when I got there, and she said she had just been told I was coming. Soon after, while I was downstairs and Mrs. Schearer upstairs, I heard Schearer smash a window and come in. Then it flashed over me this had been framed."

He gave his story of the conversation which other witnesses had related, and denied having removed any article of his clothing.

"Several months later I told these incidents to the only two people I cared about—my wife and Mayor Baker."

In answer to questioning Kohler declared he never said to Schearer: "I'm good; I'm bad. What are you going to do about it?"

Later, in December, the Chief said, Schearer's lawyer saw him and asked him to pay him something, the money to go to Mrs. Schearer.

"I replied," said Kohler, "that I wouldn't pay a thin dime."

TESTIFIES BEFORE VICE COMMISSION

Peoria, Ill., March 15.—Twenty-five of the thirty-one girls employed in the local Woolworth 5 and 10 cent store received \$500 a week or less, according to testimony of Frank D. Young, manager of the store, who testified before the Illinois vice commission today. The minimum wage he said was \$4.00 a week. Young denied that he was instructed not to pay more than \$7.00 without the consent of the head of the Woolworth company. He said his company employed only girls who live at home and that he did not know what it cost for a girl to live. There is only a slight connection between low wages and immorality, according to Young. He declined to state the profits of the store.

CONSTIPATED, HEADACHY, BILIOUS, TONGUE COATED?—CASCARETS SURE

Furred Tongue, Bad Taste, Indigestion, Sallow Skin, and Miserable Headaches come from a torpid liver and clogged, constipated bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a will barrel. That's the first step to un-toiled misery—foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret will straighten you out by morning—a 10 cent box from your druggist will keep your liver active, bowels clean and regular, stomach sweet, head clear, and make you feel bully for months. Don't forget the children.

APPEAL OF CONDEMNED MURDERER

Oswining, N. Y., March 15.—John Murraney appointed to die in the electric chair on Monday for the murder of "Paddy, the Priest," a New York saloon keeper, today sent a letter to Governor Sulzer in which he declared that unless he was reprieved he would go to the chair a victim of the underworld code of honor which condemned a "squealer" as the most contemptible thing on earth. He asks for a reprieve of 60 days in order to bring forward new evidence to prove his innocence.

HELD UP STRIKER AT GUN'S POINT

Akron, O., March 15.—Joseph Butcher, an I. W. W. worker, was arrested this morning for holding up at the point of a gun and threatening to kill a worker unless he returned to his home. The Central Labor union, affiliated with the A. F. of L., which it was reported would call a general strike here last night, took no action. It was officially stated today. This action is unlikely it is said.

Save the Liquid Manure.

"Barnyard manure is the livestock farmer's main reliance in keeping up the supply of nitrogen in the soil," says Porter Elliott, an instructor for the College of Agriculture, Ohio State University. "There are two very good reasons for this. First, the cost of nitrogen in the fertilizer sack, and second, the ease with which it can be gotten from the air, where clovers grow vigorously. With proper care three-fourths of the nitrogen in the crops grown and fed on the farm can be returned to the soil. If, however, the liquid part of the manure is allowed to escape only a small part of the nitrogen will be saved. A ton of clover hay, for instance, has in it about 40 pounds of nitrogen. When fed, 10 pounds, on the average, is retained in the animal body, 10 pounds is voided in the dung and 20 pounds passes off with the urine. If the urine is lost then only 10 pounds or one-fourth of the nitrogen in the hay has any chance of going back to the field in the manure spreader." Tight floors and plenty of bedding are recommended by Mr. Elliott as a means of preventing this loss.

The End of His Rope.

"Charles," she said, "that's the worst cigar I ever smelled in my life. Throw it away. I'm stifling!"

And she uttered a little stifled.

"It cost 10 cents," he replied, carelessly. "The man said it took four Cigars three days to make it, and I'd hate to throw it away. It cost 10 cents."

"Nevertheless," she said between stifles, "if you don't throw it away it will kill me. It's terrible. You know I'm no chronic kicker, but just look at me!"

And indeed he had never seen any one stiffer so fast or so hard. Yet he went right on smoking, muttering, "It cost me 10 cents."

The bill for the funeral (an elaborate one, for he felt quite upset) amounted to \$140.80, and as he wrote a check for it he reflected, with a twinge of conscience, "It cost 10 cents, but I suppose it would have been cheaper to throw it away."—Pittsburgh Press.

BURNED AND ITCHED BADLY

Burn Was Sore and Ulcerated. All Red and Inflamed. Suffered Terribly. Could Not Sleep for Two Weeks. Used Cuticura Soap and Ointment. Arm Healed Nicely.

539 Lincoln Park Blvd., Chicago, Ill.—

"A year ago I received a very severe burn on my left arm. I caught cold in it and it was all sore and ulcerated.

The sore was as large as a silver dollar. It was all red and inflamed and had pus running out of it. I suffered terribly from burning pain; could not sleep for two weeks it burned and itched so badly. I applied

Salve. — Salve and a salve my druggist recommended as his own, but got no relief. I then commenced using the Cuticura Soap and Ointment. I bathed the burned parts with Cuticura Soap and applied the Cuticura Ointment on a band bandage. I got relief from the first day and am healed nicely. Had I used Cuticura Soap and Ointment as first I would have avoided lots of suffering."

(Signed) Harry Junke, Mar. 9, 1912.

If you wish a skin clear of pimples, blackheads and other annoying eruptions, hands soft and white, hair lustrous and glossy, and scalp free from dandruff and itching, begin to-day the regular use of Cuticura Soap for the toilet, bath and shampoo, assisted by an occasional light application of Cuticura Ointment. Sold throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

**DEATH CAME
AS A RELIEF
TO SUFFERER**
Mrs. J. H. Newton, After An Heroic
Struggle, Passed Away Fri-
day Evening.

A family has been called upon to
pass through darkest shadows, and
an entire community is plunged into
deep and sincere sorrow by the death
of Mrs. Anna M. Newton, wife of J.
H. Newton, editor of the Daily Advocate,
which occurred at 7 o'clock
Friday evening at her home, 27
North Fifth street.

Mrs. Newton has been ill for about
four months, and throughout this
time she has been confined to her
bed as a great sufferer.

Through all the weeks of intense
suffering the indomitable soul was
never conquered, yet death came as
a relief, opening the doors of a vista
of eternal loveliness, through which
her spirit took its way to realms in
which the larger, better, immortal
faculties will have great opportunity
for their normal exercise.

Besides her husband, the deceased
leaves one daughter, Mrs. George N.
Safford, of Rockford, Ill., and a
niece, Miss Dora O. Lisle, who has
been a member of the household
like a daughter, since childhood.

The deceased was born at Millers-
burg, Holmes county, December 6,
1832, and was the daughter of James
and Eliza Spraul. She was the last
of a family of two sons and three
daughters, who grew to maturity.

On December 16, 1858, she was
united in marriage with Joseph H.
Newton, and to this union three chil-
dren were born, two of them dying
in infancy.

Four years ago Mr. and Mrs.
Newton celebrated their golden wed-
ding, and on that occasion she was
in the perfection of a matured
physical and mental vigor.

The death of Mrs. Newton has
caused the hearts of many outside of
the beloved family circle, to be
bowed with deep and sympathetic
sorrow. It could not be otherwise,
as the life of this magnificent woman
touched others along various
lines, and from sheer force of character
and personality, she left an in-
delible impress upon every one with
whom she came into contact. Her
passing will cause tender remem-
brances to flood the minds of all who
knew, admired and loved her.

The community has lost a useful
member whose life has been an ex-
ample of profitable activity in her
home, her church and society.

No more kindly impulses exist
than those which actuated Mrs. New-
ton throughout her life among
neighbors and friends. Her unself-
ish services were always enlisted to
aid, assist or counsel those who were
in need, distress or perplexity.

This never-failing thoughtfulness
for others had endeared her to a
large circle who will drop a tear in
sympathetic remembrance of some
kind word, or gracious act that en-
abled to smooth out life's pathway, or
lighten some burden of distress.

No one could have a more fitting
tribute than the one which comes
from so many hearts, when any have
spoken of the death of Mrs. Newton:
"She thought of others first; her
own interests were last in her con-
sideration."

The funeral services will be held
at the home, 27 North Fifth street,
at 10:30 o'clock Monday morning,
to which friends of the family are in-
vited. The interment at Cedar Hill
cemetery will be private. Rev. Don
D. Tullis of the Second Presbyterian
church, will officiate.

DEBATE
(Continued from Page One.)
od would signatures be secured from
voters in other parts of the states,
disinterested in this particular de-
cision? The recall is impractical,
unnecessary and dangerous." She
declared that the evils are not gen-
eral enough to warrant the adoption
of so radical a measure, and afford re-
sults in a few isolated cases.

The fact that an effort was made
to impeach one of our presidents,
doesn't necessarily prove that our
entire executive department is cor-
rupt. Judges as a rule are upright.
We have impeachment power which
is adequate enough and we challenge
the opposition to show where one
case of impeachment failed," she
declared.

The speaker said the recall had a
following of those who think little
of the official circles of the govern-
ment, who were opposed to the recall.
She referred to the fact that the Ohio
Constitutional Convention rejected
the proposition.

Miss Blair told her audience that
in states where the recall had been
adopted, but sixty percent of the
voters cast their ballots at the elec-
tions and that thirty-five out of the
sixty voted favorably to the propo-
sition. "In these states," she de-
clared, "the recall was really adop-
ted by the minority. The judiciary
on the whole is an upright and hon-
orable body and there is no pre-
valent demand for the adoption of
the recall."

Miss Blair had an excellent de-
livery. She articulated distinctly
and her voice was well modulated.
She advanced all her arguments ef-
fectively.

The third speaker was Dale Mc-
Namar for the affirmative. He re-
lated to the audience the numerous
cases of where corrupt judges made
it possible for valuable franchises
and rights were given away to the
interests. He called the impeach-
ment provision an inadequate meas-
ure. He declared that it had been
attempted only eight times. Thomas
Jefferson said, "It was not even a
scarceness." He called attention to
the fact that in case of the impeach-
ment of a county or isolated district
judge, it was necessary to bring the
charges before the state legislature
and that often, the legislative bodies
were tied up indefinitely, blocking
the work of the bodies. He urged
that it was better to let the con-
stituents act in the matter. The
fear of defeat at the recall would be
no greater than his defeat at the
regular election. He said that in
no other country in the world have
the courts so much power as in
America.

Mr. McNamar declared that a
judge was responsible to his con-
stituents alone. "It is the same re-
lation," he declared, "as an employe
to his employer. We are qualified
to invest them with power and we
are also qualified to deprive them
of this power if they abuse it. Tech-
nicalities in the law furnish loop-
holes by which judges are enabled
to dodge justice. Where the recall
has been used, it has resulted in a
restoration of justice. Law always
justice first, should be the inscrip-
tion on the judges' bench." Mr. Mc-
Namar spoke distinctly; his voice
was good and he was plainly heard
in all parts of the auditorium.

Jay McDevitt, the second speaker,
demanded of the affirmative speak-
ers answers to the nine questions
put by the previous speakers, which
he declared, he had avoided. He
spoke of the speaker's reference
to a few cases, and urged his atten-
tion to the fact that the power of
impeachment states of the forty-eight
states had been overruled that it was
to declare laws unconstitutional
and that the people were afforded
remedy in the recall. He said, the
judges and the precedent, judges
of the people. Under such a regu-
lation, judges of the people would
not of the law. In the consid-
eration of the recall, would render
to the ground. He declared that
it was denied, and its adoption
many elects would be en-
forced, would the judiciary.

Mr. McDevitt spoke clearly and
points were driven home with a
convincing force.

Gray Swinney, the last affirma-
tive speaker, he launched into a
series of facts supporting the recall.
He declared that the adoption of
the recall would make it impos-
sible to render aid and abet the
corrupt judges. He called attention
to the action of New York courts who
declared unconstitutional more than
400 laws having social and indus-
trial conditions and laws for the
protection of health, safety and life.
The recall would not remove just
judges. The recall in Los Angeles
forced a congressman to restore to the

CATARRH OF THE THROAT
Requires Prompt Treatment to Avoid Deafness

MR. DANIEL ROHRBACKER.

Many diseases are caused by taking
cold. A cold is very likely to settle
in the nose, causing nasal catarrh.
It may settle in the upper part of the
throat, called the nasal pharyngeal
space. In this space are two little
tubes called eustachian tubes, that
lead to the middle ear.

If the catarrh settles in the pharyn-
geal space it may follow the mucous
membrane through the eustachian
tubes into the middle ear. If it does
it will cause noises in the ear, and
later on be sure to cause deafness.

Catarrh of the throat may follow
the eustachian tubes up into the mid-
dle ear without causing much concern
on the part of the patient. The par-
tial loss of hearing is apt to be over-
looked. A person may lose half his
hearing before he knows it.

For instance, suppose a man can
hear his watch four feet from the ear.
If he loses his hearing to the extent
that he can only hear the tick of his
watch two feet from the ear he may
not suspect it at all. His hearing is
good enough for ordinary purposes
so long as without the slightest sus-
picion that he is losing his hearing.
He may have ringing in the ear, or
cracking and snapping sounds in the
ear, or a feeling of pressure in the
ear, but he is not aware that he is
losing his hearing.

It is a good thing to test your hear-
ing with a watch. First hold the
watch against your ear, then move it
gradually away from the ear and see
how far away from the watch you can
actually hear it tick. Try it on the
other side and see if both ears hear
alike. If you find that you are un-
able to hear the watch on both sides
alike and at a distance of four feet

from the ear, you may know that
deafness has already begun. You
should begin taking Peruna at once.
Gargle the throat with cold, strong
salt water, as directed on page four
of the "Ills of Life," sent free. Per-
sist in this treatment until a cure is
effected.

Sometimes catarrh of the nasal
pharyngeal space will cause an ac-
cumulation of secretions in the throat,
that completely fill the space. Unless
these secretions are promptly re-
moved by frequent gargling, polyp
may be formed. Once formed, the
polyp or adenoids, as they are some-
times called, will require a long time
with the gargling to remove. Gar-
gling according to the proper method
will even remove polyp or adenoids,
and no surgical operation is required.
In order to understand exactly what
is meant by proper gargling send for
a free copy of the "Ills of Life."

During the whole course of gargling
Peruna must be taken according to
directions on the bottle.

Mr. Daniel Rohrbacker, R. D. 2,
Castalia, Ohio, whose portrait appears
above, writes: "I want to say a word
about Peruna. I used it for catarrh of
the stomach, and it relieved me in a short
time. The four or five bottles I used
was worth more than all other reme-
dies I ever used."

city three miles of riverbed taken
from the city. The recall has been
exercised in Des Moines where a po-
lice superintendent was removed; in
Dallas, Texas, where school officials
were removed. Signatures of fifteen
percent of the voters would be neces-
sary to call an election for the re-
call, and each signer would be re-
quired to swear to the charges on
file, thus eliminating those who did
not believe the charges but were
prompted by motives of revenge to
sign. "Whoever heard of a judge
who was the victim of the people's
revenge?" asked the speaker.

Mr. Swingle's voice was clear and
resonant and his delivery was excel-
lent.

Henry Arnold of Mt. Vernon,
closed the arguments for the nega-
tive. He was the best speaker on
the negative side and, while his
voice was not strong, he spoke dis-
tinctly and people in the rear of the
house had no difficulty in hearing him.

He demanded to know of the affir-
mative, how they would go about
it to recall a supreme judge. How
they would escape a change of venue.
He declared that with the recall
in effect, that the courts would not
be governed by the law but by pub-
lic opinion. He stated that the re-
call would be one more tool in the
hands of the interests.

Mr. Arnold quoted an editorial by
Eugene V. Debs in The Appeal to
Reason, a socialistic publication, in
which he declared that the recall
was the greatest opportunity the so-
cialists had been given since the or-
ganizations of the party. He de-
clared any measure dangerous which
would lower the efficiency of the
courts. He quoted United States
Chief Justice John Marshall
who said that the recall would be
like clay in the hands of the people.

Each speaker in rebuttal was given
five minutes' time for an effort to
refute the points made by the op-
position and it was pleasing to note
the keen manner in which both sides
replied to the arguments of the op-
position.

School yells and songs with or-
chestra music followed the conclu-
sion of the speaking, pending the
decision of the judges.

Before announcing the decision,
Mr. Kibler stated that he expected to
be able to announce the result of the
debate in a few moments. He then
read the decision of the judges:
Newark got but one vote of the three
judges, the other two votes going to
the visitors. Mr. Vernon's repre-
sentatives in the audience greeted
the decision with a shriek of de-
light. For an instant the audience
was stunned, but Cheer Leader Rugs
met the situation promptly and the
Newark pupils gave nine yells for
the victorious team. In a few mo-
ments the decision of the judges at
Zanesville was announced and again
Mr. Vernon justified. The Mt. Ver-
non decision dampened this ardor
somewhat, but the contingent from
Mt. Vernon took much delight in
their victory here.

This was the fifth annual debate
between teams representing these
three schools, making fifteen debates
in all. Of this number, Newark and
Mt. Vernon are tied for first place
with six decisions each. Zanesville's
double victory gives them three de-
cisions in five years.

Last year Newark won both de-
bates by the unanimous decision of
the judges, the only time such a de-
cision was made.

AT ZANESVILLE.
Zanesville, March 17.—Zanesville
high school debaters were twice win-
ners in the triangular debates held
Friday night at Zanesville. Newark
and Mt. Vernon, one local team tak-
ing the affirmative and the other the
negative.

At the local high school auditor-
ium the judges voted Zanesville 2,
Newark 1. At Mt. Vernon the local
team secured all three votes and at
Newark Mt. Vernon was given 2
votes and Newark 1.

In this city the local team took
the affirmative, and at Mt. Vernon
Zanesville was on the negative side.
The affirmative debaters were Vir-
gus Mulvey, Clarence Crossland, Tur-
ner Stamp and Lewis Whitehart.
The local debaters at Mt. Vernon
were Helen Kelly, Ralph Mast, Har-
ry Templeton and Donald Atwell, all
on the negative.

It's all right to take time by the
forelock, but don't try to snatch him
by the head.

**Remarkable Offer of Profitable Invest-
ment for Persons of Limited Means**
As Safe as Government Bonds and More Profitable

I am in position to offer for sale a series of Bonds, whose
payment is guaranteed by the Great State of Ohio, under the fol-
lowing most astonishing and liberal terms:

1. These Bonds are Non-taxable.
2. They will cost you less than par.
3. You may pay for them in any number of payments to suit the purchaser, twenty if you desire one each year, or, if you prefer, eighty with four smaller payments each year, for twenty years.
4. If you are not prepared to make these payments as they become due 30 days' grace will be granted without costing you a penny of interest.
5. If you are still unprepared to pay after 30 days, more time will be granted you at a nominal rate of interest.
6. A dividend is guaranteed one year after your first payment, just as though the Bond was paid for. You may use this dividend to assist you in making your next payment if you so desire.
7. If you die before your contract is completed the payments cease and the bond, paid in full, becomes the property of whomsoever you desire to bequeath it, without a single string attached.
8. Remember, these Bonds are backed up by the Great State of Ohio, and absolutely guaranteed.

Now, what do you think of this proposition?
It is so liberal that it sounds "fishy," doesn't it?
But the offer is bona fide, and I will be pleased to refer you to
over a hundred bankers, professional and business men who have
already purchased in Newark.

This is the opportunity for the worker who is ambitious to
better his lot and provide better things for his family.

**Consider
Two Men**

Mr. A. is \$500 in debt.
Mr. B. has \$500 ahead and de-
posited in a savings account in
this "Old Home" Building Asso-
ciation, earning four per cent in-
terest.

The difference in the lives of these two men—the result
of these contrasting conditions, would make a long story.

Many men who have worked for ten years or more are
\$500 in debt like Mr. A. Others are merely even, nothing
ahead.

And yet, only 25c a day saved and deposited here would
amount to \$1,147.00 in ten years—more than the entire dif-
ference in the standing of A and B.

A savings account does indeed make a vast difference in
one's whole life.

A very enjoyable party was tendered Miss Dora Wilson on Wednesday evening when a number of her friends gathered at her home to assist her in celebrating her nineteenth birthday anniversary. The event was a surprise to the hostess. The evening was spent with games and music, and Miss Wilson received a number of pretty gifts.

At a late hour a two course luncheon was served to the following guests: Messrs. and Mesdames Edward Wilson, James Gundy, Dick Wilson, Robert Jones, Daniel Baughman, Mrs. Emma Hiles, Mrs. George Mercer, Mrs. Walter Ridge, Misses Blanche Baughman, Mar Delbort, Lillian Dispennett, Lucie Wilson, Gertrude Hart, Mary Jones, Goldie Hiles, Messrs. O. C. Crville, Baughman, Delmar Jones, Wilbur Hiles, Lloyd Mercer and Walter Baughman.

The Harmonious club met at the home of Mrs. N. E. Davis of the Mt. Vernon road Tuesday afternoon. The afternoon was spent in needle work, and Mrs. Eugene Hartshorn gave a selection on the piano, while Mrs. C.

B. Keller sang a pretty number in a spelling contest Mrs. Eugene Hartshorn and Mrs. Harry Bone received the prizes.

A dainty luncheon was served the members and guests, Mrs. Dallas Hunt, Mrs. Jud Reese, Mrs. J. C. McCray, Mrs. J. C. Burch, Mrs. C. D. Paramore, and Mrs. Harry Bone.

Mrs. Otto Ramey will be the next hostess.

Mrs. Ida Chase and Miss Brown will be the hostesses at the Y. W. C. A. "Sunday at Home" tomorrow at 2:30 o'clock in the Y. W. C. A. building.

The hostesses will be assisted by Misses Edith Woodward, Elizabeth Felix and Thora McDonough. Special Easter music will be furnished by the Donald Kinsane orchestra and Miss Riggs will render a whistling solo. The Rev. Don D. Tallis will give an illustrated talk.

Miss Josephine Hilliard is entertaining sixteen Denison University girls at her home in West Church street this afternoon with a one o'clock luncheon, honoring the new Sigma Delta Phi sorority girls.

Miss Margaret Mullin entertained at her home in North Stansberry street Thursday evening, the occasion being her eighteenth birthday anniversary. She received some very beautiful presents. A very pleasant evening was spent in music and

The body contains phosphorus sufficient to make 483,000 matches. Phosphorus is one of fourteen elements composing the body—divided among bones, flesh, nervous system and other organs. The perfect health of body requires a perfect balance of the elements. These elements come from the food we eat—the stomach extracts and distributes them.

But if stomach is deranged—the balance of health is destroyed and the blood does not carry the proper elements to the different organs, and there is blood trouble—nervous trouble—heart trouble. Pain is the hungry cry of starved organs. But the liver, stomach and organs of digestion and nutrition into a condition of health. That is just what is done by

EAST SIDE SQUARE

CHATS WITH THINKING WOMEN

by Barbara Boyd

A Side Issue of Suffrage

DID you ever pause to think that through the ages men have done most of the marching?

To be sure, marching has been looked upon as hard work; and as entirely too great a physical tax upon women—tall and delicate woman, who will stay up all night with a sick baby, and the next day, do a big washing, and cook three meals, and dress the children, and get them off to school, and throw in a little mending and preserving just by way of extras.

But she has been considered too delicate to march. So man has done the marching, and has come home with sore feet and an aching back, and said how tired he was.

But there is another side to marching he didn't speak about, and now that women have taken to marching in the cause of suffrage, they are discovering it.

There's something exhilarating, inspiring, in stepping along shoulder to shoulder, with a great host, with flags flying, bands playing, and the sidewalk cheering. You forget your feet and your back. You know only the joy of working for a cause, of feeling yourself of value in the world of realizing that when you join with others, you can accomplish something.

And it is this side issue of suffrage, this sense of the value of working with others, that will be of inestimable benefit to the average woman.

For woman, for ages, has worked alone.

She has worked alone in her kitchen. She has worked alone in her home.

She has been alone on the farm, alone on the great prairies, alone, even in her city home. She has not had the sense of fellowship which every man has had, and which adds so much to every phase of living.

But the suffrage parade in which she rubs shoulders with hundreds of other women, in which she marches with thousands for a common cause, is waking her, not only to the joy of comradeship, but to the value of combining. She begins to realize the power that is hers when she is joined with others, all thinking alike and bending their efforts in the same direction and though for the moment this direction is suffrage, she begins to see that suffrage is not, and need not be, the end. And this vision of the future and this "feel" of her power, brings a great sense of joy.

Suffrage, as it grows, will no doubt produce many valuable side issues but this is one of the first, and in its results, one of the most important.

To Clean New York as He Did Cuba

(Photo by Powers Engraving Co.) DR. M. B. McMILLAN.

In the campaign for a cleaner city which is to be started in New York, the Department of Health will have the advantage of the experience of the United States army in cleaning up the island of Cuba at the time of the recent invasion, through the assistance of one of the members of the Army Medical Corps, who was one of the best workers in the island. Dr. M. B. McMillan, assistant sanitary superintendent, has been detailed to take personal charge of the cleaner city campaign. Dr. McMillan says that the cost of the clean-up will be more than paid for in the lives that will be saved when hot weather starts in, and disease breeding flies are exterminated.

Norway's Sick Insurance Law.

Norway has a sick insurance law which embraces all wage earners and public servants over fifteen years of age whose yearly earnings do not exceed \$322 if in the rural districts or \$375 in the cities. The law also provides that the employer shall pay a certain percentage (one-sixth) of the premium, while he is held responsible for the whole, but may deduct from the wages of the insured at the end of the term for which the premium is paid the amount thus advanced. Theoretically it is self insurance on the contributive plan, while actually it amounts to an extra tax upon the employer, as most employees stipulate when engaging their services that the insurance premium shall be paid in addition to the wages.

FINE LECTURE
DELIVERED BY
DR. CHAMBERLIN

A small but very appreciative audience heard Dr. W. A. Chamberlin of Denison University speak at the Y. M. C. A. Friday evening on German life and customs, illustrating his talk with stereopticon views taken by his own company, while on a crisscrossing tour through that country. His descriptions were very fascinating and his views showed places and scenes of great interest to all who read. Plans will be made to have Dr. Chamberlin deliver the same lecture again next fall.

COMMUNICATED

City Hospital.
There has been a great deal said and printed in the Advocate against the building of a new hospital on the Everett site, corner of Buena Vista and Indiana street, by a few who have been against every improvement of Buena Vista street because they have quite a large frontage and it would cost them a few dollars. They try to make people think that they are against the hospital purely for the good of all the people, but it looks to me as though they were afraid if the city builds a hospital they will surely make improvements, such as paving the street, and they are afraid that they can not control enough frontage to keep people that want to see this street improved from getting it done. You hear them cry about the awful stench from a hospital but some of these same people will keep a pen of hogs inside the corporation, which I have been told is against the laws of the city of Newark, and there is nothing said about it, but let some talk of a hospital that will be a benefit to everybody in Newark, both rich and poor, they cry that awful stench.

High Temperature
Friday Followed
By Decided Drop
The weather in Newark Friday was unusually warm for this season of the year, thermometers registering about 70 degrees shortly after noon. There was a drop in the temperature of fully 20 degrees in the past 24 hours, and at 2 o'clock this afternoon the thermometers registered around 52.
In Cincinnati at 2 o'clock Friday the temperature reached 75 degrees, breaking all records for this time of the year. The highest previous records were on March 2, 1901, 74 degrees, and March 9, 1912, 74 degrees. The prediction was that the temperature would remain cold over Sunday. Heavy storms over the Great Lakes and south of the Ohio river are not expected to strike this section, according to the weather forecaster.

FOR FRECKLED, ROUGH OR SPOTTY COMPLEXIONS.
(From The Dermatologist)
The freckling, discoloring or roughening to which delicate skins are subject after exposure to wind or sun, or after appearing in early spring, may readily be gotten rid of. Mercolized wax, spread lightly over the face before retiring and removed in the morning with soap and water, completely obviates the disfiguring skin. Get an ounce of the wax at any druggist. There is no more effective way of banishing freckles or other cutaneous defects. Little skin particles come off each day so the process doesn't even temporarily mar the complexion, and one soon acquires a brand new, spotless, girlishly beautiful face.
Wrinkles caused by weather, worry or illness, are best treated by a simple solution of powdered salicylic acid, one ounce dissolved in a half pint with hazel. Bating the face with this produces a truly marvelous transformation.

LODGE NEWS

Fraternal Memorial Day.
On Sunday afternoon, March 9, a very interesting meeting was held in the M. W. of A. hall by representatives of the fraternal societies of the city, in which a movement has been started to establish a fraternal memorial day, in which ten of the fraternal societies are to join together and observe memorial day for their deceased brothers.
Representatives were present from Newark Lodge, No. 623, and Olive Branch Lodge, No. 34, I. O. O. F.; Newark Lodge, No. 13, K. of P.; Minnewa Tribe, No. 52, I. O. R. M.; Octagon Tent, No. 122, K. O. T. M. W.; Bayard Taylor Council, No. 211, R. A. and Cedar Camp, No. 4727, M. W. of A.

Another meeting will be held on Sunday afternoon, March 23, to perfect an organization to get the movement started. Speeches were made by representatives present from the different societies, and all were unanimously in favor of all the fraternal societies joining together and decorating the graves of their deceased members all on one day.
As the matter is each fraternal society in the city has a day set apart to decorate the graves of their deceased members, and each society observes same on one of the Sundays in June, and if a brother is a member of more than one fraternal society and he wants to be loyal to each one that he belongs to, he makes a trip to the cemetery at least two or three times and a great many object to making the trip of ten or more times.

The idea of the fraternal memorial day is for the fraternal societies to all join together on one of the Sundays in June, not as a special society, but as a member of all societies, have a memorial address delivered by some able speaker and decorate the graves of all the societies joining in the Fraternal Memorial Day Association.
At the next meeting the three societies that had no representative present at the last meeting are requested to have their representative present at the meeting on March 23, at 2 p. m. This meeting is open to any member of the fraternal societies and it is desired that a good representation of these societies will be present.

Newark Lodge, No. 13, K. of P.
Last Thursday night the Knight Rank was conferred upon eleven Esquires. The team was in excellent shape to put on this degree and the hall was crowded with enthusiastic Pythians to see these Esquires made full fledged Knights.
Many of the older members of No. 13 were present as well as several visiting brothers from Roland lodge. After lodge closed light refreshments were served and although it was rather late all felt that they had been fully repaid for their efforts and that it would be one of the sessions long to be remembered.
A number of applications were balloted upon, some new ones received and arrangements were made to confer the Page Rank next Thursday night.

The memorial committee appointed a week ago was instructed to confer with the memorial committee from Roland lodge in regard to the uniting of the different lodges in their yearly memorial services, Roland lodge having received the communication in regard to same too late to send a committee to represent them at the union meeting last Sunday and learn the proposed plans.
This union service is held in the large cities and has proven a grand success in many ways. It makes of fraternal orders a united brotherhood. It lessens the expense of each subordinate lodge and by each lodge giving a small amount the best speakers in the country can be obtained, plenty of music had, and enables those who belong to several orders to attend the one day of all lodges instead of having to turn out every Sunday for several weeks.

No display of different lodges is had as all will meet in one place and fall in line with the march where ever they are, all members of all orders being in one body, their lodge affiliation not being designated. So no one need to show partiality to any one lodge. There are a number of our most prominent public speakers of the state who are members of all the leading fraternal orders and are well qualified to deliver a fraternal address to meet such an occasion. It was suggested that Governor Cox might be asked to speak on this occasion but of course nothing definite will be done until the memorial organization is formed which will take general charge of the occasion.
Roland Lodge, K. of P.
At the last weekly meeting of Roland Lodge, No. 365, seven Esquires were shown through the mysteries of the Knight rank, but were not given the final secret work, on account of the lateness of the hour. They will be given all the work next Tuesday evening, when another class of Esquires will cross the border of the unknown land. The degree team at the last meeting was ably assisted by Brother Albert Webb of Pataskala, who took the difficult role of King and greatly pleased the large crowd in attendance. Mr. Webb has the heartfelt thanks of Roland lodge for his willingness to assist in the work. After the work the entertainment committee served light refreshments and cigars. Three applications were received and referred to committees. We are very near the 400 mark now, brothers, and when we reach it the lodge deputy has promised a big feed at his expense. Better get busy. It is hinted that the aforesaid deputy may be present next Tuesday night. We certainly will be glad to welcome him back. Arrangements are being made for the proper observance of K. of P.

Saves Miles of Step—Hours of Time

Tired feet, backache, weariness and old-time discouragement become a thing of the past the moment a Hoosier comes into your kitchen.
It stops the miles of useless steps that old-fashioned kitchen arrangements require—it stops the weary walking back and forth between pantry and cupboard and kitchen table getting things out and putting them away again. Instead of standing and walking all day, doing your work, you sit down and reach the things you want. No more aching feet and broken back.
The hours you save in time give you a chance to do the things you want to do. Keep you rested—enable you to be contented and happy. Think how quickly these few Hoosiers will be taken and come in Monday Morning Early and enroll yourself on our club list. You know in your heart how you hate the eternal drudgery part of kitchen work. Banish it forever. Now!
You can have your cabinet by night—make its acquaintance when you are getting dinner—know at once the comfort of having everything you use in cooking within reach of your arm—the joy of perfect order.

to the Ohio State League officials,
naming the conditions under which
he will operate the ball club in New-
ark for the coming season. His of-
fer hinges entirely upon the deci-
sion of Owner F. G. Warden in the
matter of turning over the lease on
the ball park and selling the equip-
ment. Mr. Warden's proposition to
Mr. McDaniels was not satisfactory
and he wired his counter-propo-
sition. Then Mr. Warden put a price
on the lease and what equipment he
has at the park and asked for a per-
cent of the sale price in case
Kearns and Meister were sold, these
two players being very promising.
The price demanded was not satis-
factory and it is on this difference
that the baseball situation here now
hinges.

HOW'S THIS?

We offer one hundred dollars re-
ward for any case of Catarrh that can-

POLICE NAB CLEVER WOMAN BLACKMAILER

Columbus, March 15.—Said to be
one of the cleverest blackmailers
that ever operated in the Middle
West, Mrs. Emma M. Howell, wanted
by the police of Chicago, Detroit,
Indianapolis, Toledo and Wilkes-
Barre, Pa., was arrested today at
Delaware by Post Office Inspector W.
B. Robinson, and is being held on a
charge of mail fraud.

Last month Mrs. Howell, alias
Anna Williams, was over \$5000
said to have collected in blackmail money.
She was in Delaware in deli-
cate health and she must have
money to undergo operation and
that her husband was away from
home, would not know the facts if
money was taken from her.

Several weeks ago, signing her
name "Anna Williams," an alleged
sister, she would send that Mrs.
Bothwell had died and that from
\$500 to \$5000 was being paid for
expenses. Later, the name of
Jane Wilson, an alleged nurse, she
would present a bill for \$500 for
nursing, threatening suit and ex-
pose if the bill was not paid.

THE BIRTHDAY CALENDAR.

IF THIS IS YOUR BIRTHDAY

Attend to your interests with care.
If in employ do not allow scheming
acquaintances to induce you against
those over you. You will gain by
steady application.
Those born on this day will succeed
where courage and quick action is
necessary. They will be taught not
to mind to quick action, for
although their life and hopes are
short-lived, their efforts may not be
so easily forgotten.

IF THIS IS YOUR BIRTHDAY

You are fortunate and will have
much prosperity and good cheer. Re-
member that a joy shared is doubled
and avoid quarrels, for they will go
against you.
Those born today will have great
success and will be respected
and admired by many. In business
they will be generally successful.
Naturally serious, they should be en-
couraged when young to see the
diversity of work and play.
